PROFESSIONAL SUMMARY

Highly innovative, enthusiastic, and aspiring full-stack web developer. Keen to take up a challenging role in a company and use my skills and knowledge towards the organization's development while gaining technical expertise and enhancing my MERN stack skills.

PROJECTS

ChalChitra

Users can also select series and movies based on their preferred genre and they can also get the details about the specific series or movie. Create a section where the user can search for movies and series as well, users can search by the movie name or series name and they will get to see all the results related to that particular name.

Features:

- Trending movies and web series
- Search the movies and web series
- Filtration according to categories
- Trailer links
- Attractive UI

Tech Stack:

React | JavaScript | Npm | HTML | CSS | MaterialUi

A solo project built by me executed in a couple of weeks.
